

Municipal elections 2020

This page would be incomplete without thanking the people, these strangers, these forgotten, these women and men, these people who wanted to shed new light on the municipality, all those who voted for me, in the last municipal elections. I am certain that these elections have awakened the passions and anger that have been buried for several years. I have applied to restore a climate of trust and regain the ability to successfully undertake all open files and those to come, for the good of all the inhabitants of this commune, young and old. Only the mountains do not meet, there is no point in waging a "fratricidal" war in this already badly affected world and in a small country of 607 inhabitants, let's live in harmony, let's roll up our sleeves and help each other, find a one a certain tranquility and joie de vivre, in the Jussy we love. Thank you again to the residents who voted for me, as well as to all those who intended to do so, but who the Coronavirus (Covid-19) kept away from the polls.

J-Luc Berthomier
